Printed March 8th 2010 goZoom.ca Inc

Questions ? Call and talk to goZoom Staff or maybe your question is answered below

Q: Will I have any other fees or charges. Do I need a separate phone line ?

A: goZoom.ca will not charge you any additional provisioning fees for this service other than the applicable monthly fee(s) for the service itself. The service operates on your current phone line and you can use it for voice at the same time. We can even hook up Highspeed if you don't have Dial Tone!

Contact goZoom for Dry Loop (DSL without dialtone) pricing and details.

Q: Who are we?

A: goZoom.ca is locally owned & located in McNab Township. We have been in the Internet business since 2005, and we pride ourselves on knowing our business, our customers and our community

Q: Is there a Modem Rental Fee?

A: As a **special offer** to residents of **Springtown and surrounding Area : Sign Up before May 15th** we will give you a **FREE modem** and 3 DSL Filters for your existing telephones.

Q: What does "over 7x Bell's offering" mean ?

A: goZoom.ca is offering a transfer "limit" of **200 Gigabytes** on residential DSL for \$39.95/month.

Bell Aliant/Bell Canada is offering **26 Gigabytes** for \$36.95/month but only for the first 12 months and then it's 41.95/month **plus Bell's modem rental fee of \$3.95/month** (all prices are before applicable Taxes)

Q: Doesn't goZoom only provide Wireless Service?

A: Our Fixed Wireless product is how most people hear of us but we're a lot more than just Wireless.

Q: But if I go to Bell and I bundle everything I'll Save money!

A: Will you? If you work with a bundle of 2 other Bell Services you'll get a \$10 discount according to Bell's promo. But you then need to 'Top Up' Bell's monthly throughput to be 'equal'. So add on 174GB based on Bell's pricing (approx \$20 for another 160GB = 186 GB total) and you might find that **going with goZoom is saving you \$5 or more per month**. That's not including the **modem rental fee of \$3.95 that Bell will charge you**, and for Springtown and area **We are giving you a modem for free when you sign up before May 15th !**

Q: Do I REALLY need 200 GB per month? That's a LOT of data.

A: Maybe not, but you're finally getting Highspeed – do you want to worry about a small limit like 26GB, and huge overage charges ?

No, you want to see what the Internet can *really* do and not worry about it right?

Q: Are you affiliated with Bell?

A: No. goZoom is an independent Internet Provider.

goZoom even has an unlimited throughput plan for another \$5 per month!
